

REVISED

STATEMENT OF PURPOSE

RS28379 / S1051

Each year the Division of Human Resources compiles a report to show how the compensation for state of Idaho employees compares to relevant markets. The compensation package offered to employees is in part driven using salary savings. This legislation will require the annual report to depict the amount of salary savings Idaho has each year and the final dispensation of that resource.

FISCAL NOTE

The fiscal impact would be negligible or non-existent due to the fact this legislation would only require reporting of data that the various departments in the State already have. It merely centralizes and makes that data clearer to decision-makers.
